

Industry

Reference List

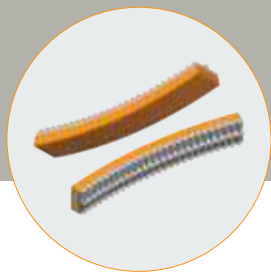

getzner
engineering a quiet future

Product Field	Project	Country
Audio technology	Decoupling of drum risers	Germany
Audio technology	Vibration protection of audio systems in nightclubs	Spain
Automotive	Elastic bearing of tractor cabins	Germany
Automotive	Embedding of a vibration test bed	India
Automotive	Bump stop at head rest	Germany
Automotive	Elastic bearing of water- and petrol tanks	International
Electronic Industry	Decoupling of components inside coffee machines	International
Electronic Industry	Elastic bearing of spirit levels	International
Electronic Industry	Decoupling of displays	International
Electronic Industry	Vibration protection for motorway and surveillance cameras (traffic, platform and border surveillance)	Austria, USA, Jordan
Heating, Ventilation and Air Conditioning	Elastic bearing of pumps and generators	International
Heating, Ventilation and Air Conditioning	Elastic bearing of furnaces and pipework	International
Heating, Ventilation and Air Conditioning	Elastic bearings in and under air handling units	International
Heating, Ventilation and Air Conditioning	Decoupling of heat pumps	International
Heating, Ventilation and Air Conditioning	Decoupling of combined heat and power plants	International
Machine engineering	Elastic bearing of power looms	Germany
Machine engineering	Elastic bearing of water pumps	Saudi Arabia
Machine engineering	Full-surface foundation of turbines	Chile, India, South Africa, Turkey
Machine engineering	Mats for punch presses	Germany
Machine engineering	Elastic bearing for telescope base plate	USA
Machine engineering	Foundation bearing of paper machines	Japan
Machine engineering	Lining a funnel in a quarry	Austria
Machine engineering	Compensation pads for generators	International
Machine engineering	Full-surface foundation of multi-station presses	International
Machine engineering	Damping cushion for sheet metal forming	Austria
Machine engineering	Damping element for detreaders	Finland
Machine engineering	Elastic bearing of front-loading washing machines	USA
Machine engineering	Machine mountings for compressors	International
Medical engineering	Damping of surgery microscopes	Switzerland
Medical engineering	Impact protection pad for medical underwear	Norway
Medical engineering	Elastic bearing of magnetic resonance tomographs	USA and Germany
Medical engineering	Elastic bearing of patient transport systems for helicopters and X-ray units	Germany
Optical Industry	Shock absorbing elements for optical equipment in heavy duty conditions	Germany, Switzerland
Rolling Stock	Elastic bearing of train floors to increase driving comfort	International

Industry

Reference List

getzner
engineering a quiet future

Product Field	Project	Country
Rolling Stock	Elastic mat for securing steel coils in freight cars	Slovakia
Rolling Stock	Decoupling of screw compressors	Japan
Sanitary	Bath- and shower tub foots to prevent structure borne noise	Germany
Sanitary	Bearing of whirlpools to prevent the occurrence of secondary airborne noise and transmission into buildings	Germany and Austria
Sanitary	Elastic bearing of washbasins and urinals	Switzerland and Sweden
Ship-building Industry	Elastic bearing of ship floors for noise and vibration reduction	International
Ship-building Industry	Battery bearings	South Korea
Ship-building Industry	Bearing of power distribution units	China
Sports	Elastic bearing of Powerplate fitness equipment	International
Sports	Elastic bearing of dumb bells in fitness centres	USA
Sports	Tendon boots for show jumpers	Germany
Sports	Damping shoe inserts	Germany, Switzerland
Sports	Spring elements in child chariot carriers	Austria, Germany
Transport and Conveyour Technique	Castors for copying machines and cash dispensers	International
Transport and Conveyour Technique	Coating for transport belts	International
Transport and Conveyour Technique	Cuck jaws for edge banding and transportation of glass	Austria
Transport and Conveyour Technique	Toothed belt for transportation of bottles	Germany
Transport and Conveyour Technique	Sealing element for vacuum lifting device	Germany
Transport and Conveyour Technique	Damping element for baggage handling belt at the airport	Switzerland
Transport and Conveyour Technique	Rollers for labelling machines	Germany
Transport and Conveyour Technique	Impact dampers and stop dampers	Germany
Transport and Conveyour Technique	Dampers for cable cars	Austria
Transport and Conveyour Technique	Elastic decoupling of elevator drives	International
Transport and Conveyour Technique	Cable dampers for the RAMA VIII bridge	Thailand

Special purpose

Product Field	Project	Country
Art	Elastic bearing of statues and pillars in a museum (protection against vibrations from the neighbouring underground line)	Italy
Art	Elastic bearing of works of art in transport facilities	International
